

LAGAFORS® MOBILE FOAM UNIT MFU 75

DESCRIPTION & FUNCTION

The mobile foam unit MFU 75 from Lagafor® is used for the application of chemicals and disinfectant in foam form. The dosing is done manually directly into the tank, only pressurized air must then be added. The whole unit is made of stainless material and is easy to move thanks to the smooth trolley function. The unit is especially suitable for the cleaning of smaller areas, alternatively when extra cleaning force is needed on one particular spot.

The MFU 75 can be used for cleaning applications in e.g. slaughterhouses, meat processing industries, dairies, breweries, fish industries and other places where a high level of hygiene is required.

The delivery includes:

- Hose - 15 metres.
- Foam lance for application of chemicals or disinfection.

Features	Benefits	Facts
Application of chemical foam	Effective cleaning	Hygienic result
Construction made of stainless steel	Robust material	Long life time
Mobile unit mounted on a trolley	Easy to operate	Flexible

TECHNICAL INFORMATION

Lagafors® Mobile Foam Unit	
Model	MFU 75
Pressure, max	9 bar
Flow	50 litres/min
Temperature, max	40°C
Tank volym	75 litres
Dimensions	
Measurements WxDxH	650 x 550 x 1100 mm
Weight	50 kg
